

SHADES OF BLACK
After a summer of rainbow colours and bright nail art, fingers are crying out for something darker. Prevent any unwanted Addams Family references by keeping your nails short, round and glossy. Try **Zoya Nail Polish in Raven** for a pure black shade or **Lancôme Vernis in Love in Purple Fiction** for a hint of deep, dark festive colour.

Into the Night

Sultry eyes, sexy lips, shimmering skin and standout nails are all Christmas party staples—and the easiest way to get yourself kissed under the mistletoe

MELLOW YELLOW
Canary yellow nails were all the rage at the fashion weeks and are the ideal way to add some festive fizz to a little black dress and heels. Brave and bang on trend, they look particularly dashing when paired with a gold smoky eye and nude lips. Try **Chanel Nail Colour** in **Mimosa**

SMOKE SCREEN
A smouldering stare is de rigueur for the holiday season, but swap your customary black this year for an iridescent deep purple eye shadow. Apply kohl pencil around your eyes to define the shape, followed by a thick layer of maroon shadow. Blend it deep into the crease with a hint of colour on the brow bone. Try **MAC Eye Shadow** in Cranberry
