CLIMAPROOF®

techfit cool

leave heat for dead
Strength. Speed. Control under pressure.
Finish in style with TechFit Cool.

KEEP COOL

COMPRESSION

techfit cool tee
SEP 100 / M4852

This men's training tee fans out heat with strategically placed CLIMACOOL® ventilation and has a TECHFIT® design that supports key muscles over a long period of time.

techfit cool graphic short tights
SEP 100 / M4443

Reinforce your training with these men's short tights. They add compression to support engaged muscles, plus ventilated CLIMACOOL® for a cool, comfortable feel.

techfit cool graphic fitted tee
SEP 100 / M48514

Ventilated CLIMACOOL® kicks in to manage heat when your heart rate is soaring, and flatlock seams mean that this piece will be comfortable throughout your workout.

climachill shorts
SEP 093 / M21224

Heat is no match for your motivation with these men's training shorts with CLIMACHILL™ that moves heat away from your body to keep you cool.

01

climachill tee

SRP 471 / M12121

This t-shirt is engineered with revolutionary CLIMACHILL™ fabric that keeps you cool with a meshlike fabric that allows for maximum ventilation. Worked into the fabric are tiny aluminum-silver dots that conduct heat away from the body while providing a cooling feeling to the skin. So as you heat up, this smart t-shirt helps cool you down.

02

climachill shorts

SRP 599 / M12126

Heard the match for your protection with these men's training shorts with CLIMACHILL™ that moves heat away from your body to keep you cool.

03

adipure 3602 shoes

SRP 1299 / M18103

The human foot is a marvel of engineering, and this men's training shoe lets it move like it's meant to.

01

feels cool on contact

Aluminum Cooling Spheres fast cool on skin upon contact. These aluminum dots are strategically located to correspond with the warmest area of the body.

02

groundbreaking climate control

SubZero yarn is a revolutionary flat yarn containing titanium. It maximizes surface contact with skin, drawing heat away from the body faster than traditional round yarns.

03

superior breathability

CLIMACHILL is by far the most breathable material we've ever created. These remarkably lightweight highly breathable fibers maximize air-permeability like an open mesh, allowing for maximum ventilation and evaporation.
