swim & beach - spring summer 2016 comes to asceno in a collection that holds a laidback feel of an almalfi escape and the clean lines of an urban landscape. Contemporary aesthetics combined with bold, optical prints results in a collection that is expressive of the concept of light refractions in modern architecture. asceno has become the go-to destination for swim & beachwear that work hard but look effortless. see relaxed cover-ups, graphic details, mixed combination print bikinis, slouchy shapes and a colour palette of high summer brights; beet red, mecca orange, lime & dusty turquoise. ss16 collections are timeless but contemporary, that is the combination that defines the asceno style.
