"I think your greatest fear when you're pregnant – apart from being a new mother – is that your body just won't be the same anymore. You're so conscious about stretch marks. And I carried huge in my pregnancies. My midwife recommended Bio-Oil, but I'd also heard about it from other women that said they had amazing results. And that's why I used it. It helps when somebody actually tells you from experience if something works."

Lyndall with Emiel

The product most recommended by doctors for pregnancy stretch marks.
(Agency), (year)

Bio-Oil® helps reduce the possibility of pregnancy stretch marks forming by increasing the skin's elasticity. It should be applied twice daily from the start of the second trimester. For comprehensive product information, and details of clinical trials, please visit bio-oil.com. Bio-Oil is available at pharmacies and selected retailers at the recommended selling price of \$xx.xx (60ml). Individual results will vary.

"I'm tall, so I got stretch marks on my legs in my teens. My mum also had them, so she advised me to start using Bio-Oil as soon as I found out I was pregnant. I lived on it – I put it on my tummy breakfast, lunch and supper. I even soaked myself in the bath with it. It's so lovely and easy to use, and I love the glow it gives your skin. Both of us actually swear by it."

“Bio-Oil is in my family – my mother uses it and my eldest sister also used it in her pregnancy. When I was pregnant I massaged it around my thighs and tummy because that’s where I felt I grew the most. It’s not too oily either, it’s just so smooth and easy to use. I love it and I’ll recommend it to my daughter too.”
