*Bli en
moderebell!*

Tiden då vi pratade om sommar- och
vintergarderober är förbi. Numera är vi alla rebeller
över säsongerna så både täckjackan och
sommarklänningen hänger framme året om.
Att förlänga klädernas livslängd är aldrig fel.

SKINN PÅ SKINN
Skinnklänningen verkar aldrig gå
ur tiden och kan bäras året om både
till vardags och till fest. Till våren
med en spetstopp under för att ge
klänningen ett mjukare intryck, men
gärna med en finstickad polotröja
och strumpbyxor under.
